# Use-Case Model

## 1. Use-Cases Identification

**Use case:** View the Song Library

**Level:** user goal

**Primary actor:** musician

**Main success scenario:**

1. The user opens the application
2. The system prompts the user to log in
3. The user writes his credentials
4. The user clicks login
5. The system validates the credentials
6. The system redirects the user the home page
7. The user clicks on “View My Songs Library” button
8. The system opens the Song Library page
9. The user selects a song
10. The user clicks on the open song button
11. The system opens a new window with the new song
12. The user can view details about that song/modify the song/delete the song

**Extensions:**

- 10'. The system cannot find the file with the song
- 11'. The system displays an error message
- 12'. The system returns to the home screen.
