# Use-Case Model

## 1. Use-Cases Identification

**Use case:** Create Paragraph in a Story
**Level:** user goal
**Primary actor:** normal user

**Main success scenario:**

1. The user opens the application
2. The user selects the "Login" option
3. The user writes his credentials
4. The user clicks "Login"
5. The system validates the credentials
6. The system redirects the user to the home page
7. The user selects the story he wishes to add a paragraph to
8. The system opens the page of the story
9. The user mouses over the paragraph from which he wants to continue the story
10. The user clicks the "Continue story" button
11. The system provides the user with a text area to write his paragraph into
12. The user writes the text
13. The user clicks "Submit"
14. The system stores the data
15. The system shows a success message
16. The system redirects the user to the story's page

**Extensions:**

5'. The system finds the credentials invalid
6'. The system returns to the login screen.
