Use-Case Model

1. Use-Cases Identification

Use case: See Movies
Level: user goal
Primary actor: citizen
Main success scenario:
1. The user opens the application
2. The system prompts the user to log in
3. The user writes his credentials
4. The user clicks login
5. The system validates the credentials
6. The system redirects the user the home page
7. The user clicks on "See cinemas" button
8. The system opens the cinemas page
9. The user choses a cinema place and clicks "See movies"
10. The system displays the schedule of movies for that cinema at that moment.

Extensions:
5'. The system does not validates the credentials
6'. The system prompts the user to log in and the process starts again.
